PROJECTS

Project 1 - Monifieth High School

This month, we're proud to announce the completion of all works at Monifieth High School. This project has been ongoing for some time, and we're delighted to see it successfully finished.

Project 2 - Waters Edge

Over the past while, we've been carrying out various jobs at Waters Edge, and we're proud that this ongoing work reflects the trust and strong relationship we've built with them

Project 3 - Malmaison

Recently, we've been working on the exterior lighting at the Malmaison Hotel in Dundee, as well as carrying out a range of electrical testing works over the past few weeks.

Project 4 - Domestic Properties

Over the past month, VF has been completing a variety of small domestic jobs for our clients. On top of this, we've recently installed two full solar systems for two of our customers.

OTHER NEWS

This month, we've finalised our brand-new website after working closely with PurpleImp throughout the development process. As part of this, VF Electrical has now evolved into VF Services — offering the same trusted services under a clearer, stronger brand identity.

We're proud to announce that this month we've secured two major new projects, based in St Andrews and Dunblane. Securing this work not only highlights the continued trust in our services, but also allows us to expand further into new areas across Scotland — helping us to spread the VF brand and strengthen our presence throughout the country.
