PROJECTS

Project 1 - St Andrews

September marked the beginning of an exciting new project for us in St Andrews — the development of a series of high-end flats designed to provide modern, comfortable living spaces for future residents.

Project 2 - Whitfield

A new development is underway in Whitefield, featuring a collection of modern new-build houses designed to offer comfortable and contemporary living spaces. We're proud to be part of this project, ensuring each home is fitted with high-quality electrical installations and reliable safety systems throughout.

Project 3 - Domestic Properties

Over the past month, VF has been completing a wide range of domestic jobs for our clients. From small repairs and upgrades to larger home improvement projects, our team has continued to deliver high-quality workmanship and reliable service.

OTHER NEWS

This month has seen the VF team come together to collaborate on a number of internal projects aimed at improving our operations and efficiency. From refining our internal processes to enhancing communication and planning across departments, the team has worked closely to strengthen the foundations of our business.

Following on from our progress last month, we're pleased to share that we have now been accepted to begin a number of new projects starting in November. This marks a positive step forward in our continued growth, and we're excited to work with both new and returning clients as we move into the next phase of development. Each project will allow us to showcase our commitment to quality, reliability, and professional delivery across all aspects of our work.
