PROJECTS

Project 1 - St Andrews

September marked the beginning of an exciting new project for us in St Andrews — the development of a series of high-end flats designed to provide modern, comfortable living spaces for future residents.

Project 2 - Aberdeen Voids

We're also pleased to share that we are now back on-site and continuing work on the next phase of the Aberdeen Voids project. This marks an important step in our ongoing partnership, and the team is fully committed to delivering the same high standards of quality, efficiency, and professionalism as we progress through this stage of the programme.

Project 3 - Domestic Properties

Over the past month, VF has been completing a wide range of domestic jobs for our clients. From small repairs and upgrades to larger home improvement projects, our team has continued to deliver high-quality workmanship and reliable service.

OTHER NEWS

Over the past month, the VF team has continued to build on our recent momentum, collaborating across the business to drive improvements in our operations and overall efficiency. From advancing our internal processes to further strengthening communication and planning between departments, the team has remained focused on reinforcing the foundations that support our growth.

Building on the achievements shared previously, we're pleased to announce that we have now commenced work on a number of new projects throughout November. This represents another positive step in our ongoing development, and we're excited to be partnering with both new and returning clients as we progress into this next stage. These projects provide a valuable opportunity to demonstrate our commitment to quality, reliability, and professional service across everything we do.
